HOGS—A good moderate run of hors arrived, the recepits amounting to 6.200 head before the day was over and the quality averaged fairly good.
The market opened with a reasonably good demand, but buyers were determined to force a decline and would make no purchases any other way. The market opened, with prices showing a loss of 5670c, the good butcher hogs and best heavies showing the least decline and were the resident sellers, while the plain and were the resident sellers, while the plain and were the resident sellers, while the plain packers, mixed lots and suffered the sreatest loss. The sellers were not wanted by if on the Southwest order, were not wanted by if on the Southwest order, were not wanted by if on the Southwest order, were not wanted by the sellers of the sellers were ready sale. At no time was the market very active, but trading was steady and early surivals were soon cleared up, and one that came in late were bought up about as fast as unloaded and yarded, but the close was flat like lower.

Good butcher and heavy hogs sold at 8.356 5.355, fair to good medium weights and mackers \$2.526, 50, 11ghts above 150 lbs average \$1.2506, 11ghts under 130 lbs average \$1.2506, 11ghts above 150 lbs average \$1.2506, 11ghts under 130 lbs average \$1.2506, 11ghts under 130 lbs average \$1.2506, 11ghts under 130 lbs average \$1.2506, 11ghts above 150 lbs av NATIVE CATTLE-Beef Steers-Tuesday's estimate called for about 3,800 head, of which the majority were natives. There were in the neighborhood of 2,500 head on sale against 2,000 last week. However, the two days supply shows a slight loss, with the same time las week and a year ago, arrivals for the two days numbering 1.700 head, against 1.900 head last week, and 6.400 a year ago. Fully half, if last week, and 4.400 a year ago. Fully half, if not a shade more, of the native supply embraced steers of a common to good lot, though there were none that could be classed as very good or choice. The market was very slow in getting started, although buyers were out early, but there were only a few loads available, and as needs were not urgent they preferred to wait until the supply was pretty well in. On account of the lateness of treins the morning trade was rather light. There was no particular activity aroused when cattle were about all in, but there was a fair tone to the trade. Huyers worked around picking out the most desirable grades, for which a good, steady to strong basis ruled with some selects quoting prices much that they had rather down that there was not enough difference to quote the trade and the steep had rather than an active, steady market.

Good 1.400-lb, steeps sold at \$555.10, with a pretty good class of 1.175 to 1.500 lb, weights at \$1.7024.85. The bulk of steers were fair to pretty good at \$4.505.10. Common to fair steers went at \$3.7664.15.

Hutcher Cattle-The trading bar's in this department was practically unchanged. Stronger values were attempted, but only a good, steady, active trade resulted. The receipts contained a fair sprinkling of good to choice heifers selling suround 34644.58, with the bulk averaging decent to good grades at 33.694. The supply of cows was fair, and as usual contained the larger portion. Medium to a good, fat grades gold at 5163.59, with the bezt heavy grades golds at 5163.59, with the best heavy grades golds at 5169, or with the best heavy grades golds at 5169, or with the best heavy grades golds at 5160, with the best heavy grades golds at 5160, with the bulk at grades golds at 5160, with the streame sales Monday, but the market throughout was fully steady. Veals sold steady and largely at 35. A steadler tone prevalled on bulls.

HEIFERS. tringing as much money as any time last week the market, has a weak tendency, and unless the offerings are good, sell very slow and irregular.

HORSTS-A great improvement in the horse market compared with last week as been shown since the opening of the week. The demand is not only larger and representative of all ouarters, but has assumed an agressive activitie, a condition which had not been manifested in the market for about two weeks. The tone has largely improved and although the scale of prices is not quite as high, as about three weeks ago when the market was enjoying an extreme run of strength and activity, it is certainly a fact that agreet made and activity, it is certainly a fact that agreet deal of the decline of the last two weeks has been recovered. The Eastern demand is made here, which seems to be the keynote of the barriest at present as the demand at this mostly for beavy horses and the Eastern demand is the most important factor this respect. The improvement in the Eastern demand is no doubt the result of better conditions in New York and Pennylvania marketic all is no doubt the result of better conditions in New York and Pennylvania marketic all other classes are atronger in sympathy, but the demand for Southern horses is passing very rapidly, and not much more trade in email plain horses can be expected for a much longer period. The market is about 3567.50 higher than tone prevalled on bulls.

Harness Horses. 1509400 MULES. The nule market is dead dull. Since the opening of the week very little life has been shown in any branch of the trade. The commission receipts have been very moderate, but there has been little or no trade, and the receipts have accumulated on the market until Tuesday morning there were about 300 head on hand and no buyers. The duliness in the market is caused by a slow and light demand from exterior markets, Dealers complain that the trade is very light, and, consequently, are not trying to pay anything on the commission market.
